

State Route 178

Mouth Of The Canyon

September 27, 2000

Project Purpose:	The project on State Route 178 will widen and straighten the alignment of the existing roadway.
Project Description:	The project will involve drilling holes in the existing rock hillside and using explosives to blast away approximately 18,000 cubic yards of rock from the existing slopes. The project will include the removal of the blasted rock and paving and striping the new roadway. A retaining wall will also be built.
Contruction Cost:	\$1,795,500
Funding Sources:	State Highway Operation and Protection Program (SHOPP): Both Federal and State Highway Funds
Agency Responsibilities:	Caltrans Design, Planning, Right of Way Acquisition, Construction Management.

State Route 178 project begins approximately 15 miles east of State Route 99 at the mouth of the canyon.
